Sixth annual iConference
February 8-11, 2011
Renaissance Hotel
Seattle, Washington

peer-reviewed papers
posters
alternative events
Doctoral Student Colloquium
Junior Faculty & Postdoc Colloquium.

The iConference is presented by the iSchools, an association of 28 academic institutions spanning eight countries worldwide dedicated to advancing the information field in the 21st century.

Why attend the iConference? Here are 3 great reasons:

- 1. Quality and breadth of research**—*we received a record number of submissions in response to our call for participation, making this year's reviews our most selective ever. With presentations spanning design, e-learning, health, knowledge organization, open access, social media, and more, you're sure to experience much that pertains to your area of expertise.*
- 2. Unparalleled networking opportunities**—*the iConference draws fellow professionals who share your passion and research interests. It's a dynamic experience that fosters interaction, spontaneity, reflection, and forward movement.*
- 3. It's fun!**—*This year's venue was selected for its first-class conference amenities, not to mention breathtaking views of downtown Seattle and the Puget Sound. The city's many attractions are all in easy walking distance. Our opening reception will be held amidst the stunning architecture of Seattle's award-winning library.*
